

Enrollment Process and Timeline

Child's Day operates on a 12-month program year that runs from mid-August to mid-August each year. Most new children join us at the beginning of the Program Year in mid-August.

- **Mid-August**
 - New Program Year begins and children move into their new class.
- **December**
 - Infant applicants are sent a survey and asked to confirm/reiterate their interest in an August start.
- **January**
 - Current families confirm their re-enrollment plans for the following Program Year.
 - New Program Year enrollment opens for siblings.
- **February**
 - New Program Year enrollment opens for families new to Child's Day.
- **On-going**
 - We offer rolling admission throughout the year as space permits.

Families should complete the [admissions application](#) to be added to the applicant pool. When we have an opening, we will contact families from the applicant pool. When we are able to make an offer of enrollment, families will be asked to make a decision and complete the enrollment process within a few days. For this reason, we ask that you complete a [tour of our school](#) at the time of the admissions application so you are ready to make an informed decision should you be offered enrollment.

We are happy to answer questions about the enrollment process or provide an update about your application status. It's helpful when families seeking admission stay in touch with us about their plans! You can reach Lauren by calling the school or emailing office@childsday.com.
